Fresh snow in the UK brings disruption

Fresh snow has begun to fall across the whole of the UK causing more transport problems. Severe weather warnings apply to north-west England, the West Midlands, Wales and southern England.

This morning the runways at London's Gatwick and City, Birmingham International, Southampton and Cardiff airports were closed due to the snow, causing flight delays and cancellations. London Heathrow Airport has also cancelled many flights this morning, mostly short-haul or domestic. This will cause some disruption to our airfreight.

The snow is also effecting the roads and some disruption has been reported on the rail networks.

GKN Freight will keep you informed of any further developments. However, please do not hesitate to contact your local GKN representative if you have any further queries.
