

## GKN Freight Services Information Bulletin

### Further Update – Transport Strike in Spain

In anticipation of disruption to supply resulting from the scheduled industrial action by Spanish transport companies, GKN Freight Services are working with component suppliers to minimise impact where possible.

At this stage it is unclear as to the extent of duration of industrial action but please rest assured that GKN Freight Services are monitoring the situation and will keep you informed of any further developments.

In the meantime, please do not hesitate to contact us if you have any questions.
