## Latest Update: Metal workers strike in Vigo

Metal workers from the Naval sector are still on strike but disruption occurs mainly in central Vigo.

A strike for the whole sector, including automotive, has been called for Thursday 25<sup>th</sup> June and the strike will only be cancelled if an agreement is reached before that date. Yesterday new negotiations started with workers but so far no agreement has been reached. If the strike proceeds as planned, access to the GKN Driveline Vigo plant may again be disrupted and the receipt and despatch of containers and road vehicles impeded.

Please rest assured that GKN Freight Services are closely monitoring the situation and will keep you informed of any further significant development. Please do not hesitate to contact us if you have any further queries.
