Le Havre dispute

The local branch of the CGT port and docks union federation has not ruled out further strike action this week at France's biggest container port, Le Havre.

The warning follows a previous one-day stoppage in protest at the transfer of public sector personnel to private operators, under port reform legislation passed in 2008.

At the time of writing, shipping lines are advising that loading operations should not be affected, however, GKN Freight Services is closely monitoring the situation and will advise of any further developments.
