Snow disrupts flights at Raleigh-Durham International Airport

Heavy snowfall across North Carolina caused disruption to air travel yesterday at Raleigh-Durham International Airport and many flights were delayed or cancelled.

Motorists were advised to drive with extreme caution as black ice and frozen patches were reported on several highways.

These weather conditions may cause disruption to our service but please be advised that GKN Freight Services are monitoring the situation closely and will keep you informed of any further developments. In the meantime if you have any questions please do not hesitate to contact us.
