

Information Bulletin

Strike in Spain

On the 29th of September, a strike has been called by the two main national unions in Spain, the UGT and CCOO against amendments to employment laws.

Based on past experience, this action has resulted in significant levels of disruption as strikers have blockaded public roads and access to places of work.

As the situation is still developing, GKN Freight Services will continue to monitor the situation and keep you informed of any further developments. In the meantime if you have any concerns please do not hesitate to contact us.
