## Update - Icelandic volcanic disruption

Some European airspace has been opened but the situation remains unsettled and it is expected that there will be massive backlogs of freight when clearance is given to fly. Many airline cargo sheds and ground handling agents have stopped accepting freight until there is some clarity regarding the situation and we have been advised not to deliver further cargo.

GKN Freight Services will continue to monitor the situation and will keep all customers updated. Please do not hesitate to contact us if you have any further queries.
